

### SUMMARY

Front End Developer dedicated to crafting seamless and user-friendly web applications for optimal user experiences. Leveraging expertise in React, Redux, Ruby on Rails, Tailwind, and Javascript from the Microverse program. Experienced in pair programming and remote collaboration, known for fast learning, effective collaboration, and adeptness in multiple languages and frameworks. Developed over 15 projects independently across frontend, backend, and full-stack applications, Demonstrating a varied collection of work and a robust skill set in software engineering.

### SKILLS

**Front-End:** JavaScript, React, Redux, Tailwind, HTML5, CSS3.

**Back-End:** Ruby, Rails, PostgreSQL.

**Tools & Methods:** Git, GitHub, Render, Figma, Netlify, Mobile/Responsive Development, TDD, Chrome Dev Tools.

**Professional:** Remote Pair-Programming, Teamwork, Problem-solving, Effective communication, Mentoring.

### EXPERIENCE

#### HIGHLIGHTED PERSONAL PROJECTS

##### Front End Web Developer

Remote  
April 2023 – Present

Developed and deployed engaging web applications, showcasing proficiency in both full-stack and front-end development. Utilized technologies like React, Javascript, Ruby on Rails, HTML, and CSS to deliver user satisfaction projects.

AutoHub Connect – A friendly website created for easy car rentals.

- Built with: Reactjs, Tailwind, and CSS.
- Project link - [Click here to see](#)

Space Travellers' Hub – This is a dynamic single-page web app connecting users to comprehensive rocket and mission data from SpaceX. Explore rockets, missions, and your profile seamlessly.

- Built with: React, Redux, and Rest Api.
- Project link - [Click here to see](#)

Doctor Appointment – An online Doctor Reservation web application designed to provide users with the ability to reserve, view, and manage doctors and doctors appointment reservations.

- Built with: Reactjs, Redux, Tailwindcss, ruby, rails, swagger, and rails-api.
- Project link - [Click here to see](#)

Meal App – The Meals App connects to TheMeal DB API to help users discover various recipes, the app makes it easy for users to explore and enjoy different meals.

- Built with: Reactjs, Redux, and CSS.
- Project link - [Click here to see](#)

### EDUCATION

#### MICROVERSE

April 2023 – November 2023

##### Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Mentored 5 junior developers by giving technical support, guidance, and suggestions for improved code quality.
